

**GINNI MODI  
COMMUNITY  
OPHTHALMIC  
RESEARCH CENTRE  
MODINAGAR (UP)**

**A**t present, the Centre provides complete facilities for comprehensive eye care services in all ophthalmic specialties. The Centre is in the forefront of providing both Curative, as-well-as rehabilitative services for the blind or visually impaired individuals. The GMCORC has been doing commendable work towards the prevention of avoidable blindness through its matrix of programs including outreach activities, working closely with the volunteer groups to identify people with avoidable blindness and get them treated.

In short, taking quality eye care to the rural area of interlands so that the poorest of the poor can be benefited. It is also proposed to augment and strengthen its programs by offering programs to train optometrists who could be employed and supplement the work done by Doctors especially in backward areas.

GMCORC has also completed its first phase of its modernization and revamping program by upgrading its infrastructure.

**STATEMENT OF ACTIVITY
