

The God's Eye

Our cover theme is both symbolic and abstract. It is inspired on the relationship between divinity, human endeavor and science. We see the expression of an extraordinary Divine & Cosmic miracle. The God's Eye – represents the Divine 'Gift of Sight' that is the focus of all that we do. In the seemingly vastness of the sea of despair, the eye is also the source of bliss, happiness and enlightenment. For the millions of our brothers and sisters who are visually challenged, the God's Eye is an inspiration to work for and alleviate their suffering.

At another level, it is the light of God's inspiration for those like NSPB, who follow the path of genuine caring for the less fortunate.

The stars, the specks of light scattered in the distance, are the lives of people that NSPB has already touched with the rays of new found happiness and joy, when they received the God's Gift of Sight. However, at the same time, the intervening dark space symbolizes the enormity of the work that still remains to be done.

The structure of 'eye' tells its own story. The blue core (or cornea, with a deeper coloured pupil within) is the commitment at the 'heart' of NSPB. The expanding orange glow is the 'action', reaching out to those challenged visually in the 'society' (space) at large.

Finally, it is a tribute to humanitarianism and philanthropy. To the cause of serving of serving the under-privileged and sick. And to the spirit of alleviating the suffering of society and preventing blindness.

On our part, we simply see it as the Will – and Vision – of God and His Infinite Grace that guides in every thought and action to do our bit.
